

# National Consultation on "Regulatory Laws & Compliances in NPOs"

A joint initiative of

**7th & 8th December 2017**

**Jacaranda Hall  
India Habitat Centre**

## Need and Rationale

The non-profit sector is undergoing meta morphosis of sorts. There are a number of internal and external factors which induce the change. The regulatory laws are becoming tougher by the day and are implemented with renewed vigor and strength. Introduction of new laws are bringing new challenges.

At the same time, the non-profit organization seriously lack capacity to cope with these changes. The response to these new regulations require super speciality skills which come with a price. The location of the NPOs in rural and backward areas also throws up the challenge of accessing such expertise. Further, since the NPOs have not faced such scrutinies before, there is a lack of well formulated response.

Keeping the above in mind the time is right to get into the deeper nuances of the "Regulatory laws and Compliances" and come up with a well formulated response.

## Objective of the Consultation

1. To analyse the current operating regulatory environment and identify challenges
2. To understand the views of larger civil society on the current scenario and look at opportunities and challenges
3. To come up with a road map in addressing the challenges
